|  | Verschlüsselung                    | Perfekt, denn Ihre Webseite deklariert einen Zeichensatz: UTF-8.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|  | W3C Validität                      | Fehler : 13<br>Warnungen : 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|  | E-Mail Datenschutz                 | Sehr gut, denn es wurde keine E-Mail Adresse im Klartext auf Ihrer Webseite gefunden.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|  | Veraltetes HTML                    | Sehr gut! Sie verwenden aktuelle HTML Tags in Ihrem Webseitenquelltext.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|  | Tipps zur Webseitengeschwindigkeit | <div>  Sehr gut, denn Ihre Webseite benutzt keine verschachtelten Tabellen. </div> <div>  Schlecht, denn es wurden CSS-Angaben in HTML-Elementen entdeckt. Diese Angaben sollten in ein entsprechendes CSS-Stylesheet verlagert werden. </div> <div>  Gut, denn Ihre Webseite enthält nur wenig CSS-Dateien. </div> <div>  Nicht so gut, denn Ihre Webseite enthält viele Javascript-Dateien (mehr als 6). </div> <div>  Gut! Sie nutzen die Vorteile von gzip. </div> |
